3rd International Conference
on

Advances in Agricultural and Allied Sciences for Climate-Resilient Food and Nutritional Security

(CRAFNS-2026)

10-11 December 2026 | **Hybrid Mode**

Venue:

ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad

E-mail: secretaryaeetds@gmail.com | aeetdsconference@gmail.com

Mobile / WhatsApp: +91-7408206291, 7042360966, 9198666776, 8009529170

INVITATION

On behalf of the **Agriculture, Entrepreneur, Environment & Technology Development Society (AEETDS), Lucknow**, and the **ICAR–National Academy of Agricultural Research Management (NAARM), Hyderabad**, it is our privilege to invite scientists, academicians, policymakers, research managers, extension professionals, industry leaders, entrepreneurs, progressive farmers, research scholars and students from India and abroad to the **3rd International Conference on "Advances in Agricultural and Allied Sciences for Climate-Resilient Food and Nutritional Security" (CRAFNS-2026)**, to be held on **10–11 December 2026** at ICAR-NAARM, Hyderabad, in hybrid mode.

Building on the success of AEETDS's earlier international and national conferences organised with ICAR institutes and State Agricultural Universities, CRAFNS-2026 will offer a focused, multidisciplinary forum to examine how advances across crop, horticultural, animal, fisheries, soil, water, food, nutritional, engineering, digital and social sciences can be integrated into agrifood systems that are productive, climate-resilient, nutritious and equitable. We look forward to welcoming you to Hyderabad the historic City of Pearls and a leading hub of agricultural research, education and innovation.

Conference at a Glance

Item	Details
Conference	3rd International Conference on **"Advances in Agricultural and Allied Sciences for Climate-Resilient Food and Nutritional Security" (CRAFNS-2026)**
Dates	**10–11 December 2026**
Venue	ICAR–National Academy of Agricultural Research Management (NAARM), Rajendranagar, Hyderabad, Telangana
Mode	Hybrid (offline and online)
Organised by	AEETDS, Lucknow, in collaboration with ICAR-NAARM, Hyderabad
Publishing partner	EdTech Publications, Lucknow (Book of Abstracts and edited book with ISBN)
Abstract deadline	20 November 2026
Registration	https://forms.gle/AyASGfqcDvEtHaTV8 · aeetdsconference@gmail.com

Important Dates

Event	Date
Opening of registration and abstract submission	25 October 2026
Last date for abstract submission	20 November 2026
Communication of abstract acceptance	25 November 2026
Last date for award nominations	25 November 2026
Last date for registration (without late fee)	30 November 2026
Last date for submission of full-length book chapters	05 December 2026
Conference dates	**10–11 December 2026**

ABOUT THE ORGANISERS

ICAR–National Academy of Agricultural Research Management (NAARM), Hyderabad

The ICAR–National Academy of Agricultural Research Management (NAARM), Hyderabad, was established by the Indian Council of Agricultural Research (ICAR) in 1976 to build capacity in agricultural research and education management across the National Agricultural Research, Education and Extension System (NARES). Located on a green campus at Rajendranagar, Hyderabad, the Academy trains scientists and managers newly inducted into the Agricultural Research Service (ARS) through its Foundation Course, and conducts executive development and leadership programmes for research managers, faculty and administrators.

NAARM undertakes research and policy work in agricultural research management, technology management, ICT and digital agriculture, agribusiness and innovation, and offers professional education such as the Post-Graduate Diploma in Management (Agri-Business Management). Its agri-business incubation activities support start-ups and entrepreneurs in the agri-food sector. As the Academy marks its **Golden Jubilee year (1976–2026)**, ICAR-NAARM provides an especially fitting setting for deliberations on research, innovation and management strategies for climate-resilient food and nutritional security.

Agriculture, Entrepreneur, Environment & Technology Development Society (AEETDS), Lucknow

AEETDS is a national-level non-governmental organisation registered under the Societies Registration Act, 1860, and established in 2024 at Lucknow, Uttar Pradesh. AEETDS works at the science–policy–practice interface to promote sustainable agriculture, agri-entrepreneurship, environmental resilience and technology-driven innovation. Through interdisciplinary research, extension, capacity building, scientific events and start-up support, the Society facilitates precision agriculture, climate-resilient systems and actionable technology adoption for inclusive rural transformation.

AEETDS has organised international and national conferences in collaboration with ICAR institutes and State Agricultural Universities, including the **2nd International Conference on "Frontiers in Science and Technology for Agricultural Transformation"** at ICAR-NAARM, Hyderabad, and national conferences with ICAR-CAFRI, Jhansi, and G. B. Pant University of Agriculture & Technology, Pantnagar. The Society also recognises excellence in agricultural and allied sciences through its annual awards and honours.

Publishing Partner: EdTech Publications, Lucknow

EdTech Publications is an ISBN-registered academic publishing house based in Lucknow, publishing textbooks, reference books, edited volumes, practical manuals and conference proceedings in agricultural and allied sciences. For CRAFNS-2026, EdTech Publications will publish the Book of Abstracts and an edited book with ISBN comprising selected full-length chapters contributed by conference participants.

ABOUT THE CONFERENCE

Agriculture today faces a twin mandate: to produce more and better food for a growing, increasingly urban population, and to do so under a rapidly changing climate with shrinking land, water and biodiversity resources. Rising temperatures, terminal heat, erratic monsoons, recurrent droughts and floods, sea-level rise, and shifting pest and disease dynamics are already destabilising yields, farm incomes and food prices. At the same time, malnutrition persists in all its forms undernutrition, micronutrient deficiencies ("hidden hunger") and diet-related non-communicable diseases showing that food security without nutritional security is incomplete.

Agrifood systems are both a victim and a driver of climate change: they are highly sensitive to climatic shocks, yet they are a major source of greenhouse-gas emissions through fertiliser use, flooded rice, enteric fermentation, residue burning, land-use change, and food loss and waste. Achieving the Sustainable Development Goals — particularly SDG 2 (Zero Hunger), SDG 3 (Good Health and Well-being), SDG 12 (Responsible Consumption and Production) and SDG 13 (Climate Action) therefore depends on science that simultaneously raises productivity, strengthens adaptation, lowers emissions intensity and improves the nutritional quality of diets.

India has made remarkable progress from food deficit to record foodgrain, horticultural, milk and fish production, supported by climate-resilient and biofortified varieties, the National Innovations in Climate Resilient Agriculture (NICRA), the promotion of millets (Shree Anna), natural and organic farming, micro-irrigation, digital agriculture and nutrition-focused public programmes. Converting these gains into durable, climate-proof and nutrition-sensitive food systems for **Viksit Bharat@2047** requires convergence of disciplines, institutions and stakeholders.

CRAFNS-2026 is designed to provide that convergence. Through plenary and keynote lectures, thematic technical sessions, panel discussions, poster sessions and a farmer–industry–scientist interface, the conference will showcase frontier research and field-proven technologies, identify knowledge and policy gaps, and synthesise actionable recommendations for researchers, research managers, extension systems, industry and policymakers. Hosting the conference at ICAR-NAARM, the national academy for agricultural research management and capacity building adds a distinctive emphasis on translating science into institutional strategy, policy and impact at scale.

OBJECTIVES

1. To provide an international platform for sharing recent advances in agricultural and allied sciences that enhance climate resilience, productivity and nutritional quality of agrifood systems.
2. To deliberate on climate-smart technologies for adaptation and mitigation stress-tolerant cultivars, resource-conserving practices, low-emission production systems and carbon farming.
3. To promote nutrition-sensitive agriculture through biofortification, crop and dietary diversification, functional foods, food safety and reduction of post-harvest loss and waste.
4. To examine the role of digital, precision, biotechnological and engineering innovations, including AI, remote sensing, genomics and genome editing, in building resilient food systems.
5. To strengthen One Health perspectives linking crop, livestock, fisheries, environment and human health.
6. To foster linkages among research institutions, universities, industry, start-ups, FPOs, farmers and policymakers for technology transfer, agri-entrepreneurship and inclusive rural livelihoods.
7. To recognise and encourage outstanding contributions of scientists, academicians, young researchers, entrepreneurs and farmers, and to mentor the next generation of agricultural professionals.
8. To formulate science-based policy recommendations aligned with the SDGs and the national vision of Viksit Bharat@2047.

CONFERENCE HIGHLIGHTS

Event	Description
Plenary, Keynote & Invited Lectures	By eminent national and international scientists, research leaders and policymakers
Thematic Technical Sessions	Ten themes, each led by a lead speaker and invited experts, followed by selected oral presentations from young scientists and research scholars
Panel Discussion	"Pathways to Climate-Resilient and Nutrition-Sensitive Agrifood Systems for Viksit Bharat@2047"
Research Management Dialogue	Drawing on ICAR-NAARM's expertise in agricultural research management, foresight and capacity building
Poster Sessions	Peer evaluation and Best Poster Awards in every theme
Farmer–Industry–Scientist Interface	With an Agri-Start-up Showcase for technology transfer and business linkages
AEETDS Awards & Felicitation	Honouring excellence in research, teaching, extension, innovation and entrepreneurship
Publications	Book of Abstracts and an edited book with ISBN (no publication charge) by EdTech Publications, Lucknow
Cultural Evening	Celebrating the heritage of Telangana and fostering networking among delegates

WHO SHOULD PARTICIPATE

Category	Participants
Research & Academia	Scientists of ICAR, CSIR, ICMR, DBT and other national institutes; faculty of SAUs, CAUs, central and private universities; international research organisations
Students	Ph.D. and M.Sc./M.Tech. scholars, post-doctoral fellows and undergraduate students of agriculture, horticulture, forestry, veterinary, fisheries, food, nutrition, community, engineering and life sciences
Policy & Development	Policymakers, research managers, government line departments, KVK and extension functionaries, NGOs and development agencies
Industry & Enterprise	Seed, agro-input, food-processing and agri-tech/AI companies, start-ups, FPOs and agri-entrepreneurs
Farmers	Progressive and innovative farmers, farm women and farmer-leaders

EXPECTED OUTCOMES

- A consolidated set of **CRAFNS-2026 Recommendations** on climate-resilient and nutrition-sensitive agrifood systems, to be shared with ICAR, ministries and stakeholders.
- A peer-reviewed **Book of Abstracts** and an **ISBN edited volume** documenting state-of-the-art research.
- Identification of research gaps and priorities for collaborative, multi-institutional and international projects.
- New partnerships among research institutions, industry, start-ups and farmer organisations for technology commercialisation and scaling.
- Capacity building and recognition of young researchers through presentations, mentoring and awards.

CONFERENCE THEMES AND SUB-THEMES

Contributions are invited on original research, reviews, case studies, success stories and policy analyses under the following ten themes.

THEME 1 Climate Change and Climate-Smart Agriculture: Impacts, Adaptation and Mitigation

- Climate change impacts on crops, livestock, fisheries and farming systems
- Climate-resilient cropping systems, contingency crop planning and resilient villages
- Heat, drought, flood, salinity and cold stress management
- Greenhouse-gas emissions from agriculture and low-emission production systems
- Carbon sequestration, carbon farming and carbon-credit mechanisms
- Agrometeorology, crop–weather modelling and agro-advisory services
- Climate risk assessment, early-warning systems and crop insurance

THEME 2 Genetic Enhancement, Genomics and Biotechnology for Stress Resilience and Nutritional Quality

- Conventional and molecular breeding for biotic and abiotic stress tolerance
- Genomics, pan-genomics, genomic selection and speed breeding
- Genome editing (CRISPR/Cas) and new breeding technologies
- Biofortification of cereals, pulses, millets, oilseeds and vegetables
- Pre-breeding, crop wild relatives and conservation of plant genetic resources
- Hybrid technology, seed systems and quality seed production
- Plant physiology, phenomics and molecular basis of stress tolerance

THEME 3 Natural Resource Management: Soil Health, Water Productivity and Conservation Agriculture

- Soil health, soil carbon, soil biology and integrated nutrient management
- Nano-fertilisers, biofertilisers, biostimulants and nutrient-use efficiency
- Water-saving technologies, micro-irrigation and rainwater harvesting
- Conservation agriculture, resource-conserving technologies and residue management
- Rainfed and dryland agriculture, watershed management and land degradation neutrality
- Management of problem soils: saline, sodic, acidic and waterlogged soils
- Integrated farming systems for resilience and income security

THEME 4 Horticulture for Nutrition, Income and Climate Resilience

- Climate-resilient fruit, vegetable, spice, plantation and floricultural crops
- Protected cultivation, hi-tech horticulture, vertical and soilless farming
- Medicinal and aromatic plants and underutilised nutrient-dense crops
- Canopy management, high-density planting and precision horticulture
- Urban, peri-urban and nutrition gardens
- Quality planting material, nursery management and micropropagation

THEME 5 Plant Health Management and Biosecurity under a Changing Climate

- Climate-driven shifts in insect pests, diseases, nematodes and weeds
- Integrated pest and disease management and biological control
- Biopesticides, botanicals, microbial consortia and induced systemic resistance
- Invasive and transboundary pests, quarantine and plant biosecurity
- Digital pest surveillance, forecasting models and diagnostics
- Pesticide residues, resistance management and safe use of agrochemicals

THEME 6 Food Science, Post-Harvest Technology, Nutrition and Public Health

- Nutrition-sensitive agriculture and dietary diversity
- Millets (Shree Anna), pulses and traditional foods for nutritional security
- Functional foods, nutraceuticals, bioactive compounds and alternative proteins
- Post-harvest management, cold chain, food processing and value addition
- Food safety, quality standards, food fortification and regulatory frameworks
- Food loss and waste reduction and valorisation of by-products
- Community nutrition, maternal and child nutrition and diet-related NCDs

THEME 7 Livestock, Poultry, Fisheries and One Health

- Climate-resilient livestock and poultry production; heat-stress management
- Animal genetics, breeding, reproduction and indigenous breeds
- Feed and fodder security, animal nutrition and methane mitigation
- Animal health, zoonoses, antimicrobial resistance and the One Health approach
- Fisheries, aquaculture, mariculture and the blue economy
- Dairy, meat and fish processing, quality and value chains

THEME 8 Digital, Precision and Engineering Innovations in Agriculture

- Artificial intelligence, machine learning, IoT and decision-support systems
- Remote sensing, GIS, drones and satellite-based crop monitoring
- Precision farming, variable-rate technologies and robotics
- Farm mechanisation for smallholders and climate-smart machinery
- Renewable energy, solar irrigation and energy-efficient agriculture
- Big data, agricultural statistics, modelling and digital public infrastructure

THEME 9 Agroforestry, Biodiversity, Environment and Sustainable Production Systems

- Agroforestry and tree-based systems for climate mitigation and livelihoods
- Biodiversity conservation, ecosystem services and agro-ecology
- Natural farming, organic farming and regenerative agriculture
- Circular bio-economy, waste recycling, composting and bioenergy
- Environmental pollution, bioremediation and ecosystem restoration
- Forestry, rangelands and sustainable land-use planning

THEME 10 Socio-Economics, Extension, Policy, Agribusiness and Research Management

- Agricultural economics, markets, trade and value-chain development
- Extension approaches, ICT-based advisory and technology adoption
- FPOs, agri-start-ups, entrepreneurship and agri-business incubation
- Gender, youth and inclusive development; smallholder livelihoods
- Policies and institutions for food and nutritional security
- Agricultural research management, foresight, IPR and technology commercialisation
- Agricultural education, e-learning, research methodology and capacity building

CALL FOR ABSTRACTS, PAPERS AND BOOK CHAPTERS

Abstract Format

- Abstracts must be original, in English, and should not exceed 300 words (excluding title, authors and keywords).
- Font: Times New Roman; title in 14 pt bold; author names in 12 pt bold; affiliation and address in 11 pt; main text in 12 pt, single-spaced and justified.
- Underline the name of the presenting author and mark the corresponding author with an asterisk (*) along with the e-mail address.
- Structure: background, objectives, methodology, key results and conclusion; avoid tables, figures and references.
- Include 4–6 keywords and indicate the theme number and preferred mode (oral/poster; offline/online).
- Submit as an MS Word file (.doc/.docx) named "Theme No._First Author Surname" to aeetdsconference@gmail.com, along with the completed registration form.
- All abstracts will be peer-reviewed by the Scientific Committee. Accepted abstracts of registered delegates will be published in the Book of Abstracts.

Full-Length Papers and Book Chapters

Participants are invited to submit full-length book chapters for inclusion in an **edited book with ISBN** to be published by EdTech Publications, Lucknow. Chapters should be 12–15 pages (A4, Times New Roman 12 pt, 1.5 line spacing), technically rigorous and original, with **similarity below 10%**. There is **no publication charge** for selected chapters. All submissions will undergo editorial review; detailed author guidelines will be shared on request. Submit chapters to **aeetdsconference@gmail.com**.

Guidelines for Oral Presentation

- Each presentation will be allotted **10 minutes**, followed by **2 minutes** of discussion.
- Limit the presentation to 8–10 slides in Microsoft PowerPoint, 16:9 widescreen (landscape) format, including a conclusion slide.
- Use a minimum font size of 20 pt and high-contrast colours (avoid dark text on dark backgrounds and vice versa).
- Hand the presentation on a pen drive to the session coordinator at least 30 minutes before the session; online presenters should e-mail it one day in advance.

Guidelines for Poster Presentation

- Poster size: **90 cm × 120 cm** (width × height), portrait orientation.
- The poster should display the title, authors, affiliations, introduction, methodology, results (with figures/tables), conclusion and key references; text should be legible from a distance of about 1.5 m.
- Presenters must display their posters at the allotted time and remain beside them during the poster session for evaluation and discussion.

Presentation Awards

- **Best Oral Presentation Award** in each technical session/theme.
- **Best Poster Presentation Award** in each theme.
- **Young Researcher Presentation Award** for outstanding presentations by research scholars.

No separate application is required. Presentations will be evaluated by a panel of subject experts appointed by the organisers, and awards will be conferred at the Valedictory Session.

REGISTRATION

Registration is mandatory for all participants, presenters and award nominees. An abstract will be included in the Book of Abstracts, and the author will be eligible to present, only after the registration fee is received. Delegates may register online through the link https://forms.gle/AyASGfqcDvEtHaTV8 or by scanning the QR code given at the end of this brochure.

Registration Fee

No.	Category	On or before 30 Nov 2026	Spot Registration
1	International Delegate	US$ 60	US$ 75
2	International Student / Research Scholar	US$ 50	US$ 60
3	National Delegate (Scientist / Faculty / Professional)	₹ 2,500	₹ 3,000
4	National Student / Research Scholar	₹ 2,000	₹ 2,500
5	Industry / Corporate Delegate	₹ 4,000	₹ 4,500
6	Farmer / Accompanying Person	₹ 2,000	₹ 2,000
7	Online Participation (all categories)	₹ 1,500	₹ 2,000

Offline registration includes: conference kit, participation/presentation certificate, working lunches, tea/snacks and conference dinner.

Online registration includes: virtual access to sessions, online presentation slot (for accepted abstracts) and certificate.

Accommodation is not included and may be arranged on a payment basis, subject to availability.

Payment Details

Particular	Details
Account Name	Agriculture, Entrepreneur, Environment and Technology Development Society (AEETDS), Lucknow
Bank	Bank of Baroda
Branch	Mohibullapur, Lucknow
Account Number	77300100025568
IFSC Code	BARB0VJMOHI
UPI	GPay / PhonePe at 7408206291 (QR code at the end of this brochure)

After payment, please e-mail the transaction ID/UTR number and a screenshot, along with the registration form, to **secretaryaeetds@gmail.com**.

Cancellation and Refund Policy

Registration fees once paid are non-refundable but may be transferred to another delegate of the same category with prior written intimation to the organisers. No TA/DA will be paid to participants or awardees by the organisers or AEETDS.

AEETDS SOCIETY AWARDS AND HONOURS

AEETDS invites nominations for its awards in recognition of outstanding contributions to agricultural and allied sciences. Awards will be conferred during CRAFNS-2026.

Honorary & Senior Awards

Lifetime Achievement Award	Outstanding Achiever Award
Eminent Scientist Award	Academic Fellow Award
Distinguished Scientist Award	Outstanding Researcher Award
Scientist of the Year Award	Outstanding HOD Award

Excellence & Discipline Awards

Best Scientist Award	Best Food Technologist / Nutritionist Award
Best Academician Award	Best Veterinary / Fisheries Scientist Award
Best Teacher Award	Best Agricultural Engineer Award
Best KVK Scientist Award	Best Biotechnology Scientist Award
Excellence in Research / Teaching / Extension Award	Best Extension Scientist Award
Best Climate Resilience Scientist Award	Women Scientist Award
Best Nutrition Security Scientist Award	Environmental Protection Research Award
Best Agronomist / Plant Breeder / Soil Scientist Award	Science Communication Award
Best Horticulturist / Agroforestry Scientist Award	Community Impact Award
Best Plant Protection Scientist Award	

Young Scientist Awards

Young Scientist Award	Young Soil Scientist / Microbiologist Award
Young Women Scientist Award	Young Food Technologist / Dietician Award
Young Academician / Researcher Award	Young Biotechnology Scientist Award
Young Climate Change Scientist Award	Young Extension Scientist Award
Young Agronomist / Horticulturist Award	Young Data Scientist (Agri-AI) Award
Young Entomologist / Plant Pathologist Award	Young Achiever / Professional Award

Student & Thesis Awards

Best Ph.D. Thesis Award	Best Research Scholar Award
Best M.Sc. Thesis Award	Best Research Paper Award
Young Ph.D. Scholar Award	Best UG Student Award

Innovation, Enterprise & Farmer Awards

Innovation Award	Post-Harvest Technology Award
Best Agri-Tech Start-up Award	Rural Innovation Award
Agri-Entrepreneur Excellence Award	Progressive Farmer Award
Digital Agriculture Innovation Award	Innovative Farmer Award

Nomination Procedure

- Submit a soft copy of the bio-data and the duly completed award nomination form to the Secretary, AEETDS, at secretaryaeetds@gmail.com on or before **25 November 2026**. The prescribed nomination form will be provided by AEETDS on request.
- Conference registration is mandatory for all award nominees.
- Award nomination/contribution fee: ₹ 5,000 for students; ₹ 6,000 for all other Indian participants; US$ 150 for foreign participants.
- The award contribution fee should be paid only after receiving official confirmation of selection by e-mail.
- Awards will be decided on the basis of Academic Performance Indicator (API) scores and the recommendations of the Award Committee; the Society reserves the right to decide the number and categories of awards.
- Age limit: below 45 years for Young awards; minimum 55 years for the Lifetime Achievement Award.
- For thesis awards, do not send the full thesis; send only the abstract, summary, conclusion and links to papers published from it.

SPONSORSHIP AND EXHIBITION OPPORTUNITIES

Organisations, industries, financial institutions, publishers and start-ups are invited to partner with CRAFNS-2026 to gain visibility among a national and international audience of scientists, policymakers, students and farmers.

Category	Contribution	Indicative Benefits
Platinum Sponsor	₹ 1,50,000	Logo on main backdrop, brochure, website and all publicity material; speaking slot in a plenary session; exhibition stall; full-page advertisement in Book of Abstracts; five complimentary registrations
Diamond Sponsor	₹ 1,00,000	Logo on backdrop, brochure and website; exhibition stall; full-page advertisement; four complimentary registrations
Gold Sponsor	₹ 75,000	Logo on brochure and website; exhibition stall; half-page advertisement; three complimentary registrations
Silver Sponsor	₹ 50,000	Logo on brochure and website; half-page advertisement; two complimentary registrations
Bronze Sponsor	₹ 25,000	Acknowledgement in brochure and website; one complimentary registration
Exhibition Stall	₹ 15,000	One stall (approx. 3 m × 2 m) for both days

Customised sponsorship of conference kits, sessions, awards, lunch/dinner or the cultural evening is also welcome. Please contact the Organising Secretaries for details.

VENUE AND TRAVEL INFORMATION

Hyderabad

Hyderabad, the capital of Telangana, is one of India's major metropolitan centres, located on the Deccan Plateau at an elevation of about 540 m above mean sea level. Known as the City of Pearls and a global hub for information technology, pharmaceuticals and life sciences, it is also home to a large cluster of national and international agricultural research and education institutions, making it a natural centre for scientific exchange. The city blends four centuries of Qutb Shahi and Asaf Jahi heritage with a vibrant modern culture and is renowned for its cuisine, especially Hyderabadi biryani and haleem.

How to Reach ICAR-NAARM

Mode	Details (approximate distance from ICAR-NAARM, Rajendranagar)
By Air	Rajiv Gandhi International Airport (RGIA), Shamshabad — about 20 km; taxis and app-based cabs are readily available
By Rail	Hyderabad Deccan (Nampally) — about 15 km; Kacheguda — about 18 km; Secunderabad Junction — about 25 km
By Road	Well connected via the Outer Ring Road and the PV Narasimha Rao Expressway; city buses, metro (up to the nearest station) and cabs are available

Weather in December

December is among the most pleasant months in Hyderabad, with clear skies, daytime temperatures of about 27–29 °C and night temperatures of about 14–17 °C. Light woollens are recommended for the evenings.

Accommodation

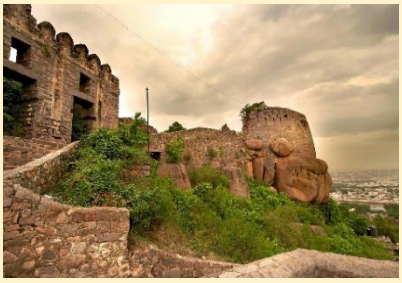

Limited accommodation may be available at the ICAR-NAARM guest house/hostel on a payment basis, subject to availability, on a first-come, first-served basis. A list of nearby hotels will be shared with registered delegates. Delegates requiring accommodation are requested to inform the organisers at the time of registration.

Places of Interest in and around Hyderabad

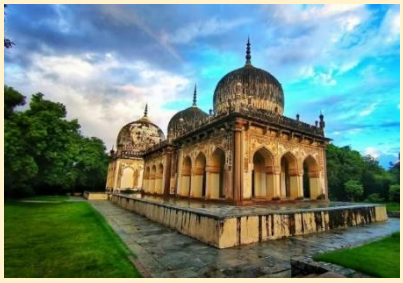

Charminar

Iconic 16th century monument (1591) and symbol of Hyderabad, surrounded by the bustling Laad Bazaar, famed for bangles and pearls

Golconda Fort

Hilltop Qutb Shahi fortress renowned for its acoustics, historic diamond trade and evening sound-and-light show

Qutb Shahi Tombs

Garden complex of domed tombs of the Qutb Shahi rulers, recently restored

Chowmahalla Palace

Former seat of the Asaf Jahi Nizams, with grand courtyards and the Khilwat Durbar Hall

Salar Jung Museum

One of India's largest art museums, with world-famous collections including the Veiled Rebecca

Hussain Sagar Lake

Heart-shaped lake with a monolithic Buddha statue; boating at Lumbini Park and Necklace Road

Statue of Equality

216-ft statue of saint Ramanujacharya at Muchintal, near Shamshabad

Ramoji Film City

One of the world's largest integrated film studio complexes, with studio tours and theme attractions

Birla Mandir & Nehru Zoo

Marble temple with panoramic city views; one of India's largest zoos, close to Rajendranagar
